

World's First Jogging Shoes for Horses

Equine Fusion Jogging Shoe Size Guide:

1) Print this chart and place the hoof onto the paper to determine the size for the Jogging Shoe. The hoof should be at the largest when you measure to make sure the shoe fits the hoof when it is trimmed and to it's full growth. If the hoof is trimmed ad 0,5 cm to the sizing.

2) Trace around the edge of the hoof that is in contact with the ground onto the paper and see which of the sizes the hoof fits into. Length 10 up to 11 is 11 and so on...

10 - 11 = 11
11 - 12 = 12
12 - 13 = 13

World's First Jogging Shoes for Horses

Example

This horse is a size 13.

Because the hoof length in contact with the ground indicate the size.

Width is not important as long as it doesn't exceed the length measurement!
